

BioAsia 2020 Today for Tomorrow

17TH – 19TH FEBRUARY 2020

HYDERABAD – THE LIFESCIENCES CAPITAL OF INDIA

Globally, the rise of more informed healthcare consumers & technologies continues to blur the traditional boundaries between therapeutics, consumer devices, medical and information technology. It is because of this that there is pressure on the Lifesciences companies to change their business model. BioAsia 2020 explores the capabilities that Lifesciences companies should urgently address how they should be preparing themselves for the upcoming future.

Participate in BioAsia 2020 and invest in Today to thrive and create value Tomorrow.

IT'S GOING TO BE BIGGER THAN EVER.
